## The Finest and Easiest Side Spring Bugay made is the Columbus

It has more desirable features than any other side spring gear. It is so constructed that the center or brace springs serve a double purpose, i. e., both a brace and an equalizer, consequently you get less side motion than on any other side spring gear. Put your whole left on one step of the COLUMBUS and watch the result, then go through the same operation on any other side spring gear vehicle and you will find the COLUMBUS goes down level, while the others will cant to one side. There has been over 40,000 vehicles with this gear sold, and so far as we know there has never been a spring broken, and its riding qualities are unsurpassed.

Take a Good Look at the Two Styles. We Have Others.
